RASH ON BABY BURNED LIKE FIRE

in ten days baby well.

R. F. D. No. 3, Ashville, N. C.—"Last summer my baby's hands had a terrible breaking out on them which soon spread all over his body. The breaking out first appeared as a rash and filled with clear water in a few days. When baby scratched these they turned to bleeding sores and burned him first so that he'd nearly go into fits. He couldn't sleep at night and he was so sore he'd cry to him and cry to him until I finally had to take off nearly everything he had on. Where the water from the sores ran the breaking out would come.

"I used _____, soda and water _____, tea, alum water, but they seemed to make him worse. About four or five weeks after the trouble _____, finding nothing to help him, I noticed an advertisement of Cuticura Soap and Ointment _____, and I used _____, and in ten days baby well."

Cuticura Soap and Ointment satisfy in purity, delicacy and fragrance the most discriminating. Sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."
